PETITION HISTORY: AUGUST 27, 2007

This petition was originally scheduled to appear at the March 26, 2007 Advisory Plan Commission hearing. This petition appeared before the Technical Advisory Committee at the February 28, 2007 meeting. At this meeting, it was determined that additional comment from TAC agencies would be warranted, and additional review of the submittal would be necessary. To allow time for this review, staff has continued this petition to the September 24, 2007 APC hearing.

PROCEDURAL NOTE

This petition carries a “REZ” designation, indicating a change in zoning request. However, the subject site is currently zoned “GB,” and the filed petition does not seek to change the current zoning district. The filed petition seeks only to modify the commitments of a previous change in zoning, a decision that falls to the Westfield-Washington Township Advisory Plan Commission. For this reason, this petition will not follow the typical change in zoning process; there will not be any informal council considerations, and the APC will move to approve or deny instead of moving to make a recommendation.
